

## Bayside Restaurant & Lounge Closed for Renovations

To our valued guests & community,

\*\*\*Due to the recent announcements from our Provincial Health Officer, The Bayside Restaurant & Lounge has decided to temporarily close until the province allows for non-essential leisure travel to continue. We are hoping to invite you back in January, if the current advisories allow. Our hotel remains open through this time.\*\*\*

We take this seriously. The Bayside Resort has been incredibly fortunate through these past months to report no cases of COVID-19 here at the hotel. We are grateful for your diligence – our guests, our community, and our dedicated staff - in following our above & beyond COVID safety plan so effectively. The culture we've built of holding ourselves & each-other accountable has made this space feel safe and comfortable in a time when that is something to be valued. Part of putting people first though, is recognizing the responsibility we have as a gathering place, as a home away from home, and as a space where our team feels respected & protected. This is a privilege, and there can be no compromise.

Rather than putting even one person at risk, we have decided to take this opportunity to remodel our restaurant, creating a vibrant space for celebrating milestones & bringing people together for many years to come. We will re-open with a dynamic BC-focused wine list, a revitalized & locally sourced west coast menu, and the compassionate, high standard of service you've come to expect.

Our Hotel will remain open, maintaining industry-leading levels of excellence in cleanliness & procedure.

We've added some new practices, such as ensuring each room sits empty for at least 24 hours between guests, and new deep cleaning procedures that allow no margin for error. We believe that responsibly providing a safe, clean place to stay will benefit our community during this time.

Thank you, and stay safe

Dominic Petraroia

Owner, The Bayside Oceanfront Resort
